SCHEDULE OF POINTS FOR DIVISION 1— EFFECTIVE MAY 16, 2023

Division 1 is comprised of: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont.

The Points towards a Championship shall be awarded to the Winners Dog and Bitch of each breed or variety based on the actual number of dogs or bitches competing in that breed or variety.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Breed or Variety, the dogs of **both** sexes that have been entered for Best of Breed or Variety competition and that have been defeated in such competition, shall be counted in addition to the dogs that competed in the regular classes for its sex in calculating championship points.

If the dog designated Winners Dog or Winners Bitch is also awarded Best of Opposite Sex to Best of Breed or Variety, the dogs of **its own sex** that have been entered for Best of Breed or Variety competition that have been defeated in competition for Best of Opposite Sex, shall be counted in addition to the dogs that competed in the regular classes for its sex in calculating championship points.

After points have been computed for Winners Dog and Winners Bitch subject to the above two stipulations, the dog awarded the Best of Winners shall be credited with the number of points calculated for Winners Dog or Winners Bitch, whichever is greater.

In counting the number of eligible dogs in competition, a dog that is disqualified, or that is dismissed, excused or ordered from the ring by the judge, or from which all awards are withheld, shall not be included. Any dog which shall have won fifteen points shall become a Champion of Record, if six or more of said points shall have been won at two shows with a rating of three or more championship points each and under two different judges, and some one or more of the balance of said points shall have been won under some other judge or judges than the two judges referred to above.

AMERICAN KENNEL CLUB

Official Standard for the Vizsla

General Appearance: That of a medium-sized, short-coated, hunting dog of distinguished appearance and bearing. Robust but rather lightly built, the coat is an attractive shaded golden rust. Originating in Hungary, the Vizsla was bred to work in field, forest and water. Agile and energetic, this is a versatile dog of power, drive and endurance in the field yet a tractable and affectionate companion in the home. It is strongly emphasized that field conditioned coats, as well as brawny or sinewy muscular condition and honorable scars indicating a working and hunting dog are never to be penalized in this dog. The requisite instincts and abilities to maintain a "dual dog" are always to be fostered and appreciated, never deprecated.

Head: Lean and muscular. **Skull** moderately wide between the ears with a median line down the forehead. Stop between skull and foreface is moderate. Foreface or **muzzle** is of equal length or slightly shorter than skull when viewed in profile, should taper gradually from stop to tip of nose. Muzzle square and deep. It should not turn up as in a "dish" face nor should it turn down. Whiskers serve a functional purpose; their removal is permitted but not preferred. Nostrils slightly open. Nose self-colored. Any other color is faulty. A partially or completely black nose is a disqualification. Freckles due to aging or sun exposure are not to be faulted. **Ears**, thin, silky and proportionately long, with rounded-leather ends, set fairly low and hanging close to cheeks. Jaws are strong with well developed white teeth meeting in a scissors bite. **Eyes** medium in size and depth of setting, their surrounding tissue covering the whites. Color of the iris should blend with the color of the coat. Yellow or any other color is faulty. Prominent pup eyes are faulty. Lower eyelids should neither turn in nor out since both conditions allow seeds and dust to irritate the eye. Lips cover the jaws completely but are neither loose nor pendulous.

Neck and Body: **Neck** strong, smooth and muscular, moderately long, arched and devoid of dewlap, broadening nicely into shoulders which are moderately laid back. This is mandatory to maintain balance with the moderately angulated hindquarters. **Body** is strong and well proportioned. Withers high. While the Vizsla may appear square, when measured from point of breastbone to point of buttocks and from the highest point over the shoulder blades to the ground, the Vizsla is slightly longer than tall. A proper proportion of leg length to body length is essential to the desired overall balance of the Vizsla. The Vizsla should not appear long and low or tall and leggy. Backline firm with a slight rise over a short and well muscled loin. The croup is gently rounded to the set on of the tail and is not steep, sunken or flat. When moving at a trot, a properly built Vizsla maintains a steady, level backline. Chest moderately broad and deep reaching down to the elbows. Ribs well-sprung and carried well back; underline exhibiting a slight tuck-up beneath the loin. **Tail** set just below the level of the croup, thicker at the root and docked one-third off. Ideally, it should reach to the back of the stifle joint and when moving it should be carried at or near the horizontal, not vertically or curled over the back, nor between the legs. A docked tail is preferred.

Forequarters: Shoulder blades proportionately long and wide sloping moderately back and fairly close at the top. Upper arm is about equal in length to the shoulder blade in order to allow for good extension. Forelegs straight and muscular with elbows close. Feet cat-like, round and compact with toes close. Nails brown and short. Pads thick and tough. The removal of dewclaws, if any, on front and rear feet, is strongly recommended, in order to avoid injury when running in the field.

Hindquarters: Hind legs have well developed thighs with moderately angulated stifles and hocks in balance with the moderately laid back shoulders. They must be straight as viewed from behind. Too much angulation at the hocks is as faulty as too little. The hocks are let down and parallel to each other.

Coat: Short, smooth, dense and close-lying, without woolly undercoat. A distinctly long coat is a disqualification.

Color: Golden rust in varying shades. Lighter shadings over the sides of the neck and shoulders giving the appearance of a "saddle" are common. Solid dark mahogany and pale yellow are faulty. White on the forechest, preferably as small as possible, and white on the toes are permissible. Solid white extending above the toes or white anywhere else on the dog except the forechest is a disqualification. When viewing the dog from the front, white markings on the forechest must be confined to an area from the top of the sternum to a point between the elbows when the dog is standing naturally. White extending on the shoulders or neck is a disqualification. White due to aging or scarring must not be faulted. The Vizsla is self-colored, with the color of the eyes, eye-rims, lips, nose, toenails and pads of feet blending with the color of the coat.

Gait: Far reaching, light footed, graceful and smooth. When moving at a fast trot, a properly built dog single tracks.

Size: The ideal male is 22 to 24 inches at the highest point over the shoulder blades. The ideal female is 21 to 23 inches. Because the Vizsla is meant to be a medium-sized hunter, any dog measuring more than 1½ inches over or under these limits must be disqualified.

Temperament: A natural hunter endowed with a good nose and above-average ability to take training. Lively, gentle-mannered, demonstrably affectionate and sensitive though fearless with a well developed protective instinct. Shyness, timidity or nervousness should be penalized.

The foregoing describes the ideal Vizsla. Any deviation from this ideal must be penalized to the extent of the deviation. Deviations that impact performance and function should be considered more serious than those that affect only appearance.

Disqualifications: *Partially or completely black nose. Solid white extending above the toes or white anywhere else on the dog except the forechest. White extending on the shoulders or neck. A distinctly long coat. Any male over 25½ inches, or under 20½ inches and any female over 24½ inches or under 19½ inches at the highest point over the shoulder blades.*

Dana Cline National Conformation

In the late 1960's, Dana Cline's parents gave him his first Great Dane and from that moment he knew that we would have a lifetime of involvement with this breed and with dogs.

As a young child he exhibited in 4H, training in both obedience and conformation. He found the dog show world in his teenage years, spending nearly every weekend traveling to shows, helping professional handlers and handling dogs for friends with other breeds as well. While his main interest was always in Great Danes, he worked hard to learn about other breeds and to become more active in all breeds. All of his weekends spent at dog shows eventually led him to a career as a professional handler, where he specialized in Danes and sight hounds, but also handling various other breeds along the way.

Breeding has always been a favorite aspect of this sport for Mr. Cline and currently breeds and exhibits Tibetan Mastiffs and Italian Greyhounds. He has bred nearly 100 champions in a number of breeds, primarily Great Danes, but also Borzoi, German Wirehaired Pointers, Miniature Bull Terriers, Beagles, Italian Greyhounds and Tibetan Mastiffs and is also a Breeder of Merit. He was a long-time member of the Great Dane Club of America. He is a member of The American Tibetan Mastiff Association.

Mr. Cline is an All-Breed Judge. He has judged in a number of foreign countries, multiple National Specialties, as well as many of the country's top shows. He was also the Recipient of the 2017 AKC Judge of the Year.

Erin Crowley National Sweepstakes & Iron Dog/Bitch

I have been in the sport of dogs since I was eight years old. My mother purchased our first German Shorthaired Pointer as a companion for my brothers. We went to one dog show, and then another, and another until we had a van and camper and were all in. We bred GSP's for a few years, then the Vizslas came into the house and the whelping box. I started showing in 1979 as a Junior Handler, and also finished many class dogs during my years as a Junior. I took a break to attend college, but soon was drawn back to the ring. I took a break to raise my son, and have divided my time between my role as Hockey Mom and dog shows for the last 10 years. I am fortunate to still be showing both GSP's and Vizslas. While I have had much success in the ring, the biggest success is my relationship with the dogs and people I am surrounded by. I have had the opportunity to judge sweepstakes in both breeds. I have also had the opportunity to evaluate many litters over the years. My day job in Child Protection requires an outlet to maintain my sanity. I enjoy the competition and camaraderie of the sport, and have witnessed the support of the community when needed.

Elliot L. More, DVM Regional Conformation

Dr. Elliot More of Deerfield, New Hampshire, imported his first show dog, a Golden Retriever, from England in 1964. Shortly thereafter he began apprenticing for many of the top professional handlers on the east coast, including Bob and Jane Forsyth, Bob and Sue Fisher, Ted Young Jr and Bill Trainor. Dr. More received a B.Sc. from McGill University in 1975, majoring in Genetics. He showed dogs professionally for 15 years and was the last handler to be granted an “all breed” handlers license from the AKC in 1978. Dr. More attained his DVM degree in 1993 and has been in practice for the last 30 years. He has been judging for over 30 years and is approved for the Sporting and Working groups.

Denise Lacroix Obedience

When I was 9 my parents bought me my first dog, Tinkerbelle, a rough Collie that I trained to do tricks and some obedience. I guess I have been judging dog shows since I was 11 when I would put on dog shows in my yard judging the neighborhood kids with their dogs. My first obedience dog as an adult was my Great Dane, Brindle. We never made it to trials only matches. We bred and showed (confirmation) Alaskan Malamutes for years. No obedience but they loved to pull sleds. My first obedience dog was my Standard Poodle Ledgeland's Tiger Lily UD. Our love for Corgis started in the 70's when we bought our first Pembroke Welsh Corgi, Rottie, for my son Billy to show in Jr Showmanship. My corgis have earned numerous obedience, rally, tracking, agility and herding titles. We have earned 3 AKC Versatile Companion Dog 1 titles and 2 VCD 2 titles. Right now I have 2 corgis Maisey, 15 ½ and Duncan, 6

I have been an AKC Obedience judge since 2001 and Rally judge since it started. I also judge AKC Farm Dog, Temperament Testing, CGC and Trick Dog. I really enjoy judging. I still compete so I can feel your pain and celebrate your victories. I wish more competitors would realize our dogs love us, win or lose. I dislike competitors that get upset with their dogs when things don't go right. Dogs are dogs, they don't purposely not sit or ignore you on the drop on recall. They don't ask to be in the ring, they are there because they love you. We ask a lot of them. We should be more understanding. My Maisey, a rescue was 4 ½ when we were fostering her, then decided to keep her. She was dog reactive, a fear biter and we had to chase her around the house to catch her. Today she is Ledgeland's Miss Maisey VCD 1, NA NAJ BN PCD TD HT FDC. TKA, CGCA RAE CDX RATS. Her scores were never the best, but we were thrilled to walk out of that ring with a green ribbon. You should be too. Our titles don't come with scores. Try to keep it fun for you and your dogs. I look forward to judging for your club. Thank you, Denise Lacroix

Karen Westerfield Tucker Rally

My name is Karen Westerfield Tucker and I live in Walpole, Massachusetts. I am a regular status AKC Rally judge and since April 2022 a provisional Utility Obedience judge (awaiting the final steps to complete the process). In comparison with many judges, I am relatively new to dogs and dog sports. Neither my husband nor I grew up with dogs. In 2002, we adopted our first dog, an adult Pembroke Welsh Corgi, who introduced us to therapy work, Agility, Rally, and Obedience. With the addition of three more Pembrokes over the years, we have branched out into Tracking, Herding, and Nosework/Scentwork. My husband and I both compete, and I have earned three CDX titles, one UD, two TD, one TDX, and two HSAd titles. I am currently a Novice A handler in Agility.

I entered my first Rally trial in 2007. Three of my Pembrokes earned the RE title, and one dog earned the RAE and Master titles at the grand age of 12. My three-year-old Pembroke and I are currently competing in the Rally Advanced class. She and my four-year-old Icelandic Sheepdog are both training with me in competitive Obedience; I now prefer to train into Utility before I trial my dogs in AKC Obedience.

I am a member of the Mayflower Pembroke Welsh Corgi Club, the Northeast Stockdog Association, and the Tracking Club of Massachusetts. I also hold membership in the Icelandic Sheepdog Association of America and write the ISAA column for the AKC Gazette. I am on the staff at Masterpeace Dog Training in Franklin, MA, where I teach multiple Rally classes each week.

For my “day” job, I am on the faculty at Boston University, where I have taught graduate students since 2004.
